ABOUT US

URBAN CITY IMPACT

AWAKENING DREAMS AND SPARKING GROWTH IN YOUTH

Purpose

We empower young people by connecting them with the resources they need to thrive and reach their full potential.

Mission

We are committed to being a beacon of hope for Hampton Roads youth by providing essential resources, mentorship, and activities that cater to their physical, mental, and emotional needs, empowering them to build a strong foundation for their future.

Vision

We offer safe environments for youth to grow and transform. Their families and communities are empowered through our targeted mentorship programs.

CURRENT PROGRAMS

GROUP MENTORSHIP

By segmenting our student body into mentorship groups according to age and background, we can effectively cater to their unique needs. Organized group outings encourage bonding and exploration, motivating our boys to make strides in personal growth and development.

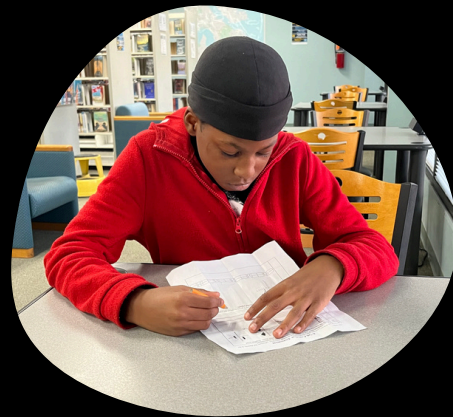

MENTORSHIP TALKS

One-on-one mentorship talks are held over meals and activities, providing platforms for discussing topics of importance to individual students. The tones of these conversations vary, with some being lighthearted and others more serious.

CURRENT PROGRAMS

LIBRARY TRIPS

We offer our students opportunities to go to the library twice a week to study and do homework in peaceful environments free from distractions.

I NEED IT PROJECT

The I Need It Project aims to support the well-being and academic success of youth by furnishing crucial daily essentials, including toiletries, food, school supplies, and haircuts, thus alleviating concerns about personal hygiene and access to necessary resources, and enabling students to devote attention to their school work and personal aspirations.
